A large portion of the world's population engages in the marketplace every day. Coffeehouses provide an opportunity to encounter these people during their daily activities. The non-threatening atmosphere is one that produces lasting relationships and an open door to share the hope we have in Jesus.

There are two significant purposes for establishing coffeehouses overseas. First, coffeehouses facilitate evangelistic opportunities in areas otherwise closed to the Gospel. Second, coffeehouses help establish new churches in order to grow the national church and the global body of Christ.

Coffeehouses are strategically placed in our vast global network and designed for maximum ministry effectiveness. Each one serves as a bridge between the church and the community of non-believers.

Through Coffeehouse Ministries, the Word is reaching the world through the marketplace. Souls are being saved!
