

Missionary Dashboard: My Partners

- As soon as someone gives to your support/gift/ministry account, they are automatically added to your My Partners list.
- If there is some information missing, that simply means we do not have anything on record.
- If you wish to add a partner who may not be a donor, please notify the WMM office, and we will add it to your list.
- If there are partners you wish to remove, please notify the WMM office. Remember that if that person donates again, he/she will be automatically added back to your partner list.
